

Pembroke Library [*Have Your Say*]

In anticipation of the redevelopment of the South Quay site in Pembroke, we would like to hear your thoughts on the proposed new library. As you may know, the plan is to part demolish and part refurbish derelict properties in Castle Terrace, together with some elements of new build, to create the Henry Tudor Visitor Centre, Library and Information Centre, Café, Community Space and Garden. The project aims to transform the site into a vibrant area that not only appeals to visitors but will also benefit the local community.

Modern libraries don't just encourage a love of reading, but also provide a place for lifelong learning, build digital skills, organise cultural activities, host community events, offer a quiet space to study, and much, much more. With the potential to offer a wide range of activities and services it is important that during the development stage we take into account the particular needs of the local community.

With this in mind, we would like to know what is important to you. Particularly what activities and services you would like in your new library? We would like to hear from you even if you are not a member of the library.

The closing date for responses is Sunday 20th December 2020
